SafeMedia Corp.  
6699 North Federal Hwy suite #200  
Boca Raton, Florida. 33487

Dear Safwat Fahmy,

We evaluated several vendors whose products were HEOA compliant and were overwhelmed by the performance, the countless number of available P2P, Trojans, botnets...etc., rules and the ease of use of the Halo<sup>NS</sup> "SafeMedia Security Appliance".

Once we placed the SafeMedia security appliance in-line, we instantly were able to identify and report on those users who were in violation of our "Internet Acceptable Use Policy" and our "Higher Education Opportunity Act (HEOA) Policy". SafeMedia's customer support help in setting up the appliance within our infrastructure with amazing speed (less than ½ hour).

This security appliance is truly remarkable. We are a very happy and HEOA compliant customer.
